

Title: Master Plumber	Effective Date: June 24, 2017	Grade: XI	Job Category: Skilled Craft
Prior Title: Initial Distribution	Prior Effective Date:	Grade:	Page: 1 of 1

CHARACTERISTICS OF WORK

Under the direction of the Facilities Management Section Head, this position will supervise and coordinate activities of Department employees engaged in assembly, installation, and repair of pipes, backflow prevention assemblies, fittings and fixtures of heating, water supply, and waste disposal systems for buildings.

EXAMPLES OF WORK

The following examples are intended only as illustrations of various types of work performed. No attempt is made to be exhaustive. Related, similar, or other logical duties are performed as assigned. The Department may require employees to perform functions beyond those contained in job descriptions. The Department may modify job descriptions based on Department needs. The Arkansas State Highway and Transportation Department is an "at will" employer.

- Inspect in-progress and completed plumbing work to determine conformance to Arkansas plumbing codes and design specifications.
- Repair, replace, and supervise the installation of backflow prevention assemblies statewide.
- Oversee work performed by Plumbers.
- Request permits and inspections for projects performed by the Department where applicable.
- Review design plans and specifications for new facilities and facilities to be remodeled to ensure they meet state and local plumbing codes.

MINIMUM REQUIREMENTS

The educational equivalent to a diploma from an accredited high school. Master Plumbing License. Backflow Tester Technician Certification. Backflow Repair Technician Certification. Valid driver's license. Statewide travel as necessary.

("Accredited" means the education institution or program is accredited by an accrediting organization recognized by the United States Department of Education or by the Council for Higher Education Accreditation.)
