## INTEROFFICE MEMORANDUM

**DATE:** December 6, 1984

**TO:** BRIDGE DESIGN PERSONNEL

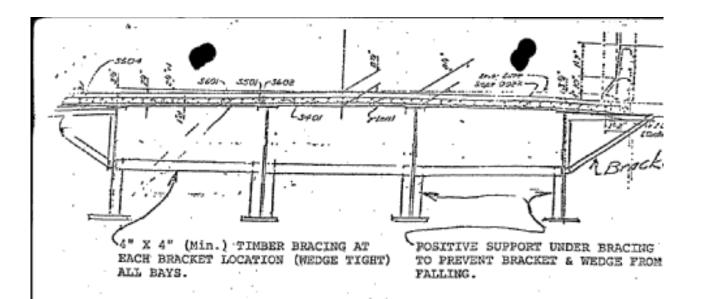

FROM: Veral Pinkerton, Bridge Engineer

**SUBJECT:** Overhang Brackets

Please add the following note to all overhang bracket drawings approved for future projects:

Overhang forming checked for stresses only, deflection of overhang due to loadings must be determined and adjustments made therefore in the field.

cc: Construction Division

If a transverse finishing machine is used the rail shall be supported directly over the exterior beams or as an alternate the rail may be supported by the overhang brackets if the above strutting system is used. SCREED RAIL SUPPORT.
