### **IMPROVEMENTS TO INTERSTATE 40 AND INTERSTATE 430 REQUIRE OVERNIGHT LANE CLOSURES IN LITTLE ROCK**

**LITTLE ROCK (1-28)** – Overhead sign structure installation requires overnight lane closures on I-40 and I-430 in Little Rock, according to Arkansas State Highway and Transportation Department (AHTD) officials.

The work requires alternately closing the inside and outside lanes of I-40 for eastbound and westbound traffic between mile markers 142 and 148, and inside and outside lanes of I-430 for northbound and southbound traffic between mile markers 10 and 12. In addition, the work will necessitate short, intermittent traffic stops on I-40 and I-430 while work is performed over the travel lanes.

- I-40 lane closures will be in effect **Monday, February 1 through Friday, February 5**, between 8:00 p.m. and 5:00 a.m. Intermittent traffic stops will occur between 11:00 p.m. and 5:00 a.m.
- I-430 lane closures will be in effect **Wednesday, February 3 through Friday, February 5**, between 8:00 p.m. and 5:00 a.m. Intermittent traffic stops will occur between 11:00 p.m. and 5:00 a.m.

Traffic will be controlled using barrels, electronic message boards and advance warning signs.

This project is part of AHTD's Connecting Arkansas Program and includes widening 5.1 miles of I-40 to three lanes in each direction. The work extends east from Highway 365 to Interstate 430. The project is anticipated to be complete in mid 2016. More information on this \$38.4 million project is available at [ConnectingArkansasProgram.com](http://ConnectingArkansasProgram.com).

Drivers should exercise caution when approaching and traveling through all highway work zones.
