## Director Dan Flowers Receives National Recognition

Director Dan Flowers has received the Thomas H. MacDonald Award from the American Association of State Highway and Transportation Officials (AASHTO) for his service in the transportation industry.

AASHTO's MacDonald Award is the most prestigious award given by the association. Since 1957, it has recognized outstanding achievement in the fields of highway administration, engineering and research. It is given to a state transportation professional who has rendered continuous outstanding service over an extended period, or who has made some exceptional contribution to the art and science of highway engineering.

Flowers received the award at a recent AASHTO annual conference in Philadelphia.

## Red Cross Honors AHP Officer

The American Red Cross of Greater Arkansas took time to honor seven Arkansas heroes on October 8<sup>th</sup>, among them was Arkansas Highway Police Officer Danny Williford.

Williford, of Jonesboro, is also a corpsman in the U.S. Navy Reserves. He was on a military transport returning home from duty in Greece when a military dependent that had received medical care a day earlier suffered a severe allergic reaction and seizure. Williford quickly assessed the situation, told the pilot and, working with medical personnel

on the ground, administered medication and supported the victim until an emergency landing in France.

Williford and six others were honored at a luncheon at the Chenal Country Club. Arkansas native Asa Hutchinson, Undersecretary for Border and Transportation Security at the U. S. Department of Homeland Security, was the luncheon's keynote speaker. He praised the Red Cross for honoring Williford and other "ordinary individuals for extraordinary acts of heroism, personal sacrifice and commitment to their community."

# Interstate Rehabilitation Program Progresses Through Fourth Year

As the Interstate Rehabilitation Program (IRP) moves successfully through its fourth year, a total of fifty roadway projects have gone to contract.

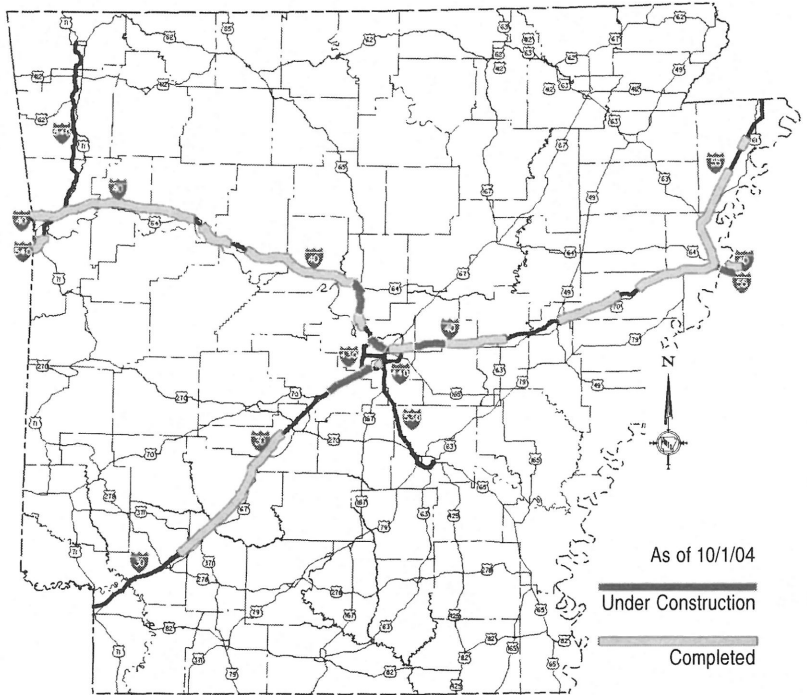

Forty-one jobs are now complete totaling approximately 291 miles. Completed projects include:

- 12 projects on I-30 totaling about 54 miles,
- 24 projects on I-40 totaling about 196 miles,
- 4 projects on I-55 totaling about 34 miles, and
- 1 project on I-540 totaling about 7 miles.

Nine jobs, totaling approximately 65 miles, are currently under construction.

Central Arkansas and West Memphis are the present areas of activity under the IRP, but these areas are scheduled to have more jobs completed by the end of this year. At the close of 2004, only major widening projects on Interstate 40 in North Little Rock and on Interstate 30 from Little Rock to Benton are expected to have active Interstate Rehabilitation Program jobs.

Although not part of the IRP, ongoing Interstate maintenance activities and other roadway construction projects such as the Malvern Bypass on Interstate 30 and the upgrading of an interchange on Interstate 40

in Conway will require lane closures. Checking information resources before traveling, such as the Daily Lane Closure report at [www.ArkansasHighways.com](http://www.ArkansasHighways.com), will help motorists anticipate possible delays in roadway construction zones.

# The Staff Minute

*Featuring a different AHTD employee each month.*

**Employee:** Mark Grozis

**Position:** Ferry Boat Supervisor, Peel Ferry

**Length of Service:** 23 Years

**Duties:** I oversee ferryboat operations and supervise facility repair and maintenance. I also control and curtail Ferry operations during peak load periods or threatening weather conditions to ensure a reasonable level of service is maintained, and suspend service under unsafe conditions. I

schedule crews and adjust schedules as necessary to ensure the ferryboats are adequately staffed at all times and that operations are maintained under all circumstances. I'm also responsible for resolving any public complaints in order to maintain a favorable Department image.

**Favorite or most interesting part of your job:** The people I work with are my favorite part of the job. They are a good bunch that think a lot of their jobs and enjoy them, which makes it easy for me. The most interesting part of my job is the people that cross the Ferry. They love to visit and ask questions. We get people from all over the world and locals that we see fairly regularly. We average about 85 cars a day year-round (more in the summer, fewer in the winter) so you see quite a few people. The scenery is top notch too!

**Background:** I started with the Highway Department in August of 1981 as a Deckhand working toward my pilots license. I took my pilots license test in Memphis and then obtained my Coast Guard license and became a Pilot-Deckhand in 1986. In 1992, I was promoted to Pilot, and in 2000, I was promoted to Ferry Boat Supervisor.

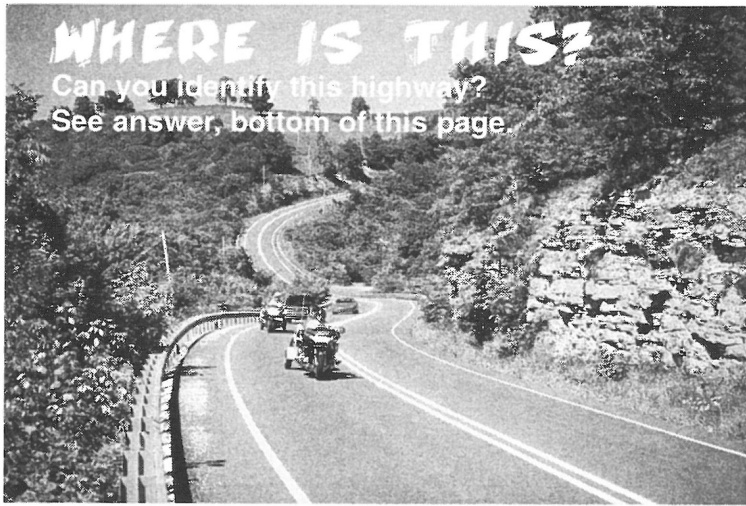

**Family:** My wife, Paula, and I will soon have been married for 20 years. By the way, I met her on the ferry. We have one daughter, Shayna, age 14. She likes sports and horses.

**Hobbies/Interests:** Where do I start? Hunting, fishing, riding four wheelers, an occasional Nascar race, going to ballgames, eating, working in my shop, going to local events and just about anything else with my family and friends.
